

PC Starting UP CARD

Mode: SANT-SUC01

Control your computer from anywhere

Checklists before using the device

- Your smart phone or tablet should have connected a 2.4G WiFi with internet.
- The device only supports 2.4G Wi-Fi. If you use a 5G router (it provides two Wi-Fi signals: 5G and 2.4G), please select the 2.4G WiFi to connect your smart phone.
- Download and install the eWelink App from App Store or Google Play store. Register or log in with your eWelink account.
- During pairing process, make sure that your iOS or Android device and the SANT-4CH are within the range of your WiFi router.
- Make sure your router is MAC-open. If not, please cancel the router's MAC filtering setting first.

Scan to download eWelink App
